# MOHAMMED SHAWEZ KHAN

Indore, India | skhan200609@gmail.com | +91 9285510004 | LinkedIn | GitHub

## PROFESSIONAL SUMMARY

Third-year Computer Science and Biotechnology student with hands-on experience in AI training, data annotation, machine learning, data analysis, and prompt engineering. Experienced in LLM response evaluation, search relevance assessment, image annotation, audio evaluation, and AI model improvement. Proficient in Python, SQL, JavaScript, PHP, Excel, Power BI, and modern AI/ML tools. Strong analytical, communication, and problem-solving skills with fluency in English, Hindi, and Urdu.

## CORE SKILLS

AI Training, Data Annotation, LLM Evaluation, Prompt Engineering, Search Relevance Rating, Image Annotation, Bounding Boxes, Segmentation, Classification, Audio Transcription, Audio Evaluation, Machine Learning, Data Analysis, Data Visualization, Business Analytics, Quality Assurance

## TECHNICAL SKILLS

Programming: Python, SQL, JavaScript, PHP, Java, C++, C
Data Science: Machine Learning, EDA, Feature Engineering, Predictive Analytics, Statistics
Libraries: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, OpenCV, PyTorch, Keras
Databases: MySQL, PostgreSQL, MongoDB
Tools: Excel, Power BI, Tableau, Jupyter Notebook, Google Colab, Git, GitHub, VS Code

## EXPERIENCE

AI Training & Data Annotation Contributor (OneForma & Outlier)

- Completed 30+ hours of AI training, evaluation, and annotation projects.
- Evaluated AI-generated responses for quality, relevance, accuracy, and instruction following.
- Performed image annotation including bounding boxes, segmentation, and classification.
- Conducted search relevance assessments and content quality reviews.
- Completed audio transcription and audio evaluation assignments.

Data Science Intern | Averixis Solutions Pvt. Ltd. (Google Cloud Collaboration)

- Performed data preprocessing, cleaning, and exploratory data analysis.
- Built and evaluated machine learning models on real-world datasets.
- Worked with cloud-based tools and industry-standard data workflows.

## PROJECTS

AI-Generated Face Detection
- Built image classification models to distinguish AI-generated and real faces.
- Applied computer vision, preprocessing, and model evaluation techniques.

Titanic Survival Prediction
- Performed data cleaning, feature engineering, and predictive modeling.
- Evaluated model performance using machine learning techniques.

## EDUCATION

Bachelor of Science (Biotechnology & Computer Science)
Acropolis Institute of Management Studies and Research
2024 – 2027

## CERTIFICATIONS

- Advanced Data Science and AI/ML Course
- Microsoft Excel Certification
- Algorithm and Logic Development Workshop

## LANGUAGES

English (Fluent)
Hindi (Native)
Urdu (Fluent)
